

RICHMOND CONSTANTE

Dasmarinas, Cavite | +639150365602 | rconstante.dev@gmail.com

EDUCATION

De La Salle University – Dasmariñas

Bachelor of Science in Computer Science

Relevant Coursework: Machine Learning, Software Engineering; Operating Systems; Algorithms; Artificial Intelligence

Dasmarinas, Cavite

July 2022 - July 2026

WORK EXPERIENCE

Freelancer

Philippines

Full Stack Developer

Dec 2024 – Present

- Built and deployed multiple full-stack applications across web and mobile platforms including CRM systems, SaaS applications, and real-time systems
- Developed cross-platform mobile applications using Flutter and React Native with API integrations and real-time features
- Designed and implemented RESTful APIs using Node.js and Python handling authentication, data processing, and third-party integrations
- Developed scalable frontend interfaces using React.js improving user interaction and performance
- Architected and managed databases including PostgreSQL and MySQL ensuring efficient queries and data integrity
- Delivered end-to-end solutions covering frontend, backend, mobile, and deployment for multiple client projects
- Implemented real-time features and optimized application performance across web and mobile platforms

Cawil.AI

Makati City, Metro Manila

Full Stack Developer

Jun 2025 – Aug 2025

- Led development of web and mobile applications, owning frontend and backend architecture
- Built and integrated RAG-based systems to enable AI-powered features and intelligent data retrieval
- Trained and deployed machine learning models including computer vision pipelines
- Designed scalable APIs and backend services for AI-driven applications
- Collaborated within a small team to deliver production-ready features under tight timelines

PROJECTS

Tagbase.co | React.js, Tailwind CSS, Node.js, PostgreSQL, OpenAI, HubSpot API

- Built a HubSpot Marketplace app featuring a tag-based CRM dashboard for dynamic data organization and workflow management
- Designed scalable APIs and optimized frontend performance for real-time interaction within CRM environments

vbase.io | React.js, React Native, Node.js, PostgreSQL, Tailwind CSS, HubSpot API, Google Maps API, OpenAI

- Developed a full-stack SaaS platform across web and mobile integrating CRM systems, geolocation services, and communication tools such as Gmail and Outlook
- Implemented AI-driven features including text-to-speech and intelligent data processing with scalable backend architecture for real-time multi-user operations

Smart Classroom | Python, Flask, Computer Vision, Machine Learning, HTML, CSS, JavaScript

- Developed an AI-powered smart classroom system for De La Salle University – Dasmariñas, integrating IoT devices and multiple ML models for real-time monitoring and analysis
- Implemented computer vision pipelines and backend services to process live data and generate actionable insights

SKILLS

Languages: Python, JavaScript, Java, Kotlin, HTML, CSS

Frameworks: React.js, React Native, Tailwind CSS, Flask, TensorFlow, PyTorch

Database: PostgreSQL, MySQL, SQLite, MongoDB

Cloud & Platforms: Microsoft Azure, Google Cloud Platform, Firebase, Supabase, Neon, Convex

Tools: REST APIs, Git
